THAW CAUGHT AND ADMITS IDENTITY.

Harry K. Thaw Who Escaped From Matteawan Asylum Caught in Canada.

Coaticoode, Quebec, Aug. 19.—Harry Thaw is under arrest here today. The Ottawa government has been asked to rule on the right of the authorities to hold Thaw for New York.

The escaped Matteawan prisoner was arrested here today through the efforts of Deputy Sheriff Kelsey, of Colebrook, N. H., who recognized Thaw on a train.

Thaw was inclined to resent his arrest and repeatedly asserted that he could not be held legally.

Albany, N. Y., Aug. 18.—Acting Gov. Glynn, when told that Harry Thaw was under arrest in Canada, said that he did not know what action would be taken.

"Of course his extradition is a matter for the federal authorities to settle," he said.

Washington, Aug. 19.—If the man Canadian police authorities have under arrest at Coaticoode is Harry Thaw he can be extradited under charges of bribery or assault with intent to kill, according to an opinion expressed today by Solicitor Van Dine of the state department.

To The Voters of Crittenden County.

I take this method of thanking the voters of Crittenden county for their hearty support in the Primary election recently held. Let me further assure you that I appreciate the nomination sufficiently to put forth my best efforts to be the next Jailer of Crittenden county. And in the final, as well as the Primary campaign, I expect to make an honorable, clean race, and if elected I will be the Jailer of the people.

Again let me thank you for your hearty support, and ask for a continuation throughout the coming months.

Sincerely,
WM. ENOCH BELT.

Melons Destroyed by Night Riders.

Princeton, Ky., Aug. 19.—Night riders are at work destroying watermelons in this county, miscreants having entered the patch of G. R. Ashby, a resident of the Claxton section, and ruined about 400 fine ones just ripening by cutting them open and destroying the vines. The melon crop in this county is an exceptional good one this year, and great loads of them are hauled here daily.

Ice Famine Serious.

Providence is now up against the worst ice famine it has ever known since artificial ice came into use. The ice plant's water supply is exhausted and it has closed down. The plant at neighboring towns are taxed to the full capacity and no shipments can be had from any of these points. Small quantities of ice are being shipped in from Clay, Evansville, Henderson and other places, but consumers have no assurances whatever of being able to get a continuous supply.

THREE WOUNDED IN PISTOL BATTLE

Man Shoots Wife At Fair In Henderson; Bystander Joins Fray.

Henderson, Ky., Aug. 19.—Seven thousand people at the Henderson county fair were horrified by a shooting here this afternoon which resulted in three persons being severely wounded. Scores of persons saw the gun play.

The crowd was just leaving for home when Ed Preston opened fire on his wife with a pistol.

"I wouldn't do that" remonstrated Jim Wynn, of Providence who was standing nearby. Preston turned quickly and began pumping bullets in the direction of Wynn. Wynn returned the fire with an automatic and wounded Preston.

Preston's wife was fatally shot. Stray bullets punctured several bystanders, one getting a bullet through his leg, another through his heel. Ed Preston, a negro, was badly wounded. The ambulance was worked overtime.

The shooting was followed by a mild but very sudden hurricane which blew down tents and threw the already excited crowd into near panic.

Moonlight Threshing.

La Crosse, Wis., Aug. 19.—Moonlight threshing was the rule on the big farms about La Crosse, both on the Wisconsin and Minnesota sides of the river last night. Threshing crews were unable to work in the daytime since Wednesday, on account of the intense heat, so men and teams slept during the day, and early last evening, when the moon came out brightly and cooling breezes swept over the farms, the forces resumed work and continued throughout the night.

CROWDER FOX AGAIN IN THE TOILS

Arrested at Princeton Sunday Afternoon, Charged With Shooting Hugh Chidless.

Crowder Fox, who was arrested at Princeton Sunday afternoon charged with shooting Hugh Chidless at Mexico Sunday, was brought here by the Caldwell county officials Monday afternoon, and his examining trial is set for tomorrow. In the meantime he is lodged in the county jail.

From Dave Kevil's Town And Probably His Pen.

There are seven million girls in their teens in the United States. If these should suddenly be transported to some distant clime the candy factories would shut down, millinery stores would go broke, boarding schools would be suspended, women would weep and men would despair. Gone would be the voice of the bridegroom, the sound of singing, the joy of music, the light of beauty. The big round moon would flood empty hammocks and deserted front porches, song and laughter would cease, the land would mourn, the stones cry out, the sky drop down tears and the whole world agree that life would not be worth living.—Sikeston, Missouri Standard.

SHOOTS MAN IN SELF DEFENCE.

Citizen of Mt. Zion Section in Trouble in South East Missouri.

Now in Jail.

John S. Burks who lives in the Seminary Spring section went to Missouri last Saturday week on a business trip and in some way, not yet understood by his friends here, became entangled in an alteration with a man in that section and was compelled to shoot him in self defense so we are informed.

A message came to Mort Duval, a neighbor, asking him to come to the aid of Burks' who was placed in jail there awaiting developments. We have since heard that the wounded man was dead but have been unable to learn the facts in the case, or to verify any of the reports. The above is all based on rumors.

John Burks is a clever, hard working man and is not given to having trouble with his neighbors here, but bears a good reputation and every one who knows him is sorry to hear of his trouble and hopes for a speedy release.

Have Wrought by Drouth in Kentucky.

Hopkinsville, Ky., Aug. 19.—The drouth in this part of the country continues to hold sway except in a few localities where showers have fallen. Todd, Trigg and Muhlenberg counties have had rains recently, and temporarily are relieved. For this region as a whole, corn will not make more than half a crop and tobacco will be reduced at least that much. Pastures and gardens are practically total losses, water supplies are getting very low, and drinking water is a serious matter in many sections. At Princeton the Illinois Central railroad is having to haul water from other points in oil tanks to supply its trains.

32 LIVES LOST WHEN OCEAN VESSEL SINKS.

Juneau, Alaska, Aug. 19.—When the steamer State of Cal. went down Sunday in Gambier bay, south of Juneau, twenty five of the passengers and seven of the crew were lost.

The daughter of Edward C. Ward, assistant manager of the Pacific Steamship Co., which operated the ship, died when she was taken off a raft.

The vessel struck an uncharted rock and sank in three minutes. A complete list of the missing is unknown because the purser lost his records. The steamer Seattle rescued those passengers and members of the crew who got aboard rafts.

To Locate in Princeton.

Hon. Marion F. Pogue, of Crayne, Crittenden Co., has rented the T. E. Coleman house, known as the Spears place on the north side of College street. He will move his family here in a few days. We gladly welcome Mr. Pogue and his most excellent family to Princeton. The change in his location is due to the convenience of Mr. Pogue, who is State School Inspector also to give his children the advantage of our splendid schools.—Princeton Leader.

DENIES RECOGNITION REPORT

Huerta Denies He Demanded Immediate Recognition As President.

Washington, Aug. 19.—While official dispatches today quickly disposed of the sensational war scare brought on by reports that American diplomats in Mexico would be handed their passports, the situation was tense on account of Huerta's having rejected the mediation plans proposed by President Wilson.

Officials here had hoped that the refusal was not final.

Huerta flatly denied that he had demanded immediate recognition of his power as president. He said that the minister of finance had made some such remark but it was by no means official.

An amended mediation plan might be accepted, it was believed.

John Lind was marking time today, awaiting further instructions from Secy., Bryan and President Wilson.

Annual Campmeeting At Piney Fork.

The annual campmeeting began at Old Piney Aug. 8th and closed Aug. 17th.

We had Rev. W. H. McLeskey with us from Friday until Wednesday, he preached some of the best sermons I most ever heard.

We also had Rev. W. T. Oakley with us some of the time who did some fine preaching.

Both of the former preachers leaving before the meeting closed, the pastor did the rest of the preaching in his weak and feeble way.

The meeting resulted in 33 conversions and 15 reclaimed, a total of 48 and a general revival to the church.

On account of the dry weather and dust the congregations were not so large as usual but plenty large. The new well furnished abundance of water and every body seemed to enjoy the surroundings very well, we were wonderfully blessed with both literal and spiritual showers for which we thank God one and all.

We pray God's richest blessing upon everyone.—Rev. F. L. McDowell, Pastor.

Hurt in Runaway.

Eddyville, Ky., Aug. 19.—Last week G. W. Jones, a farmer of Crittenden county, while attending the campmeeting met an auto, frightening his horse and in the wreck made of his buggy left his head and face a mass of cuts and bruises and for more than an hour he was unconscious.

Will Celebrate His Diamond Jubilee Next Year.

T. M. Butler who was born 74 years ago at Piney Fork camp-ground, attended the meeting this year for the 74th time. He has never missed a meeting. His parents lived at "Stonewall" near Piney Fork church and attended every meeting when he was a child, and since he can remember, he has never failed to be there. Mr. Butler now lives in Christian county near Casy but he makes his annual visits to his old birth place and is always a welcome visitor.

PRINCETON SHORT ON WATER SUPPLY

Trains Have to Haul Supplies and People are Also Short.

The water supply here has become quite a serious matter, especially so with the I. C. railway system. For several days water has been hauled here in oil tanks as a means of supplying the incoming and outgoing trains as well as the yard engines and shops with necessary water to run things. The water hauled here is for the Evansville district, the main line trains being supplied with water from the Tradewater and Cumberland rivers, which make it very inconvenient at this point. In addition to the I. C. system being hard hit by the scarcity of water the town and county is also feeling the drouth very much, and the gardens and crops, both corn and tobacco, are greatly damaged in fact almost ruined.—Princeton Leader.

May be Forced to Have Right Leg Amputated.

Morganfield, Ky., Aug. 19.—Frank Martin may be forced to have his right leg amputated as a result of being accidentally shot last winter. The wound soon healed, but the bullet was never extracted. Of late Mr. Martin has suffered greatly from the injury.

Says Sun Set Bridge on Fire in Oklahoma.

Guthrie, Ok., Aug. 19.—The first train in three days was sent over the Fort Smith and Western Railroad today, because of the destruction by fire of a big pile bridge just east of Boley, Okfuske county. General Agent A. C. Hixon of the company said today the fire was started by the intense heat of the sun.

Drops Dead While Chasing Boys Out of Garden.

Washington, Aug. 15.—While pursuing some boys who had been throwing stones at the hot house in the national botanical gardens, C. Leslie Reynolds, superintendent of the gardens, dropped dead from heart failure. Mr. Reynolds had been connected with the botanical gardens for about forty years and won national reputation through his development of the American Beauty.

Damage by Lightning.

An electrical storm passed over some sections of the county Tuesday night and great damage is reported. The most serious losses are J. D. Wiggins, near Vicksburg, a barn and contents valued at \$1,200.00, one-half insured. Phin B. Croft, at Tolu, a fine barn and contents, loss \$2,000.00, partly insured. Walter Young, near Fredonia, also lost a fine barn and contents.

Meeting Closes.

Rev. James F. Price has just closed a successful meeting at Friendship in Wayne county. There were twelve professions, eleven additions and the church greatly revived. This makes over 90 professions and about 40 additions to the church in Mr. Price's meetings.

He goes to Corinth, near Russellville, this week to assist Rev. E. W. Graves in a meeting.

DIES SOON AFTER MOVING TO CAIRO

Mrs. May Wyatt Follows Husband into Great Beyond.—Rebet of Late J. F. Wyatt.

Mrs. May Shelly Wyatt succumbed to an attack of paralysis at St. Mary's hospital in Cairo last Sunday morning at 4:00 o'clock after a painful illness of several weeks. Mrs. Wyatt removed to Cairo, Ill., from Princeton, Ky., last month in order to be with her sister-in-law, Miss Mary Wyatt, with whom she had resided most of the time for many years. Soon after reaching Cairo she was stricken with paralysis, but all to no avail. She was unconscious for several days prior to her death. With her when the end came, were her nieces Mrs. G. P. Roberts, Mrs. J. W. Wilson and Miss Mary Wyatt, and they arrived here Monday afternoon with the remains which were taken to the home of Mr. and Mrs. J. W. Wilson, where the funeral was held Tuesday morning at 9 o'clock Rev. H. V. Escott officiating and Miss Annie Haynes singing a favorite hymn of the deceased. The burial took place immediately afterward at the New Cemetery, the remains being placed beside those of her husband, the late J. F. Wyatt, who died at Salem last Christmas eve day.

There were many beautiful floral offerings.

Mrs. Wyatt was the youngest daughter of the late Clark M. Shelby, of Lyon Co. Her mother was a daughter of Chittenden Lyon, who was in Congress one-hundred years ago.

She was born Oct. 24th, 1860, and was therefore nearing her 53rd birthday. She was the last of her family, her parents, brother and sisters all having preceded her to the grave. She is survived by four nieces and two nephews: Mesdames G. P. Roberts and J. W. Wilson, of this city, Mary Pryor, of Eminence, Ky., and Joseph Wilson, of Auburn, Ky. Her nephews are, Albert M. Shelby, of St. Louis, Mo., and Harvey Leech, of Los Angeles, Cal., formerly of Princeton, Ky.

Four Little Orphans.

John B. Grissom received a case of eggs one day last week from a country merchant and when candling them found 4 eggs pipped.

These were laid aside and soon 4 little orphan chicks saw the light of day. He took them to Mrs. Grissom who is taking great delight in rearing them.

A New Geography.

A class of boys had been examined in geography, the previous day having been devoted to grammar. Among the geographical questions was the following: "Name the Zones."

One promising youth of eleven years who had mixed the two subjects, wrote:

"There are two zones, masculine and feminine. The masculine is either temperate or intemperate; the feminine is either torrid or frigid."—American Messenger.

\$2,000 SADDLE HORSE STAKE BANNER FEATURE KY. STATE FAIR

Seventeen Blue-Blooded Equine Monarchs Have Been Entered In This Contest for Rich Prizes at the Big Louisville Show In September

(Special)—Seventeen royalty bred "Monarchs of the Equine World" are to be pitted against each other in the great \$2,000 Commissioner of Agriculture Stake for five-gaited saddle horses, which will be the banner event of the Kentucky State Fair, to be held in Louisville, September 15-20, according to the list of entries which closed on July 1.

The premium is the highest ever offered in a contest of this kind, and has attracted the most important owners and exhibitors of the country. The \$2,000 stake is divided into seven different prizes, and one of the conditions of the contest being that the entry money for all over 15 contests shall be added to the first premium, makes this enticing prize figure up to \$680. The honor of being "in the money" at all in this stake is one coveted by the leading owners and exhibitors of blue-blooded stock in the country, and the struggle for supremacy among the seventeen is destined to be a formidable one.

The roster as it stands for 1913 includes P. W. Ray & Son, of Bowling Green, Ky., who will probably fight for first prize with Black Whirlwind, a contestant, who is truly a "dark horse," being totally unknown to ring frequenters, but who is reputed as formidable as its name. Mat S. Cohen, of Lexington, Ky., will very likely enter the celebrated Mary Yandell Fox, who took third prize last year for her grand owner, Mrs. Richard Powers, of Danville, Ky.

J. T. Collins & Son, of North Middletown, Ky., will enter a horse never shown heretofore. Mullik & Shropshire, of Winches-

MANY SPLENDID FEATURES BOOKED.

The greatest agricultural, live stock and educational event in the South is the Kentucky State Fair, the eleventh annual celebration of which will be held in Louisville, September 15-20, next during the most beautiful and alluring season of the entire year.

At this exhibition will be shown products of the mine, the forest, the workshop and the factory, and the rarest examples of cultivated flowers, plants, art work, needle work, county school exhibits, a model dairy and many other entertaining and instructive features.

The new features introduced for the year's fair will include the Kentucky State Fair Futurity, or saddle breed foals of 1913, an event equal in importance and dignity to the great racing futurities on the thoroughbred and trotting turf.

In addition to these there are three special saddle horse stakes, nomination to which closed April 15, with the most creditable list of entrants that have ever been recorded for a like event. Horse racing, always attractive and pleasing to the fair going public, will be on a bigger scale than ever before. Recognizing the popularity of this sport as well as the value of the branch of horse breeding business it represents, the State Fair management has offered four \$1,000 stakes for this year's meeting. There will be fourteen other business events and two or three running races every day. As the fair precedes the fall race at Douglas Park, some of the crack runners in training at the local tracks will doubtless compete in these races.

There will be free attractions too numerous to mention, but sufficient to give visitors to the Fair a constant round of novel and attractive entertainment.

BLUE-BLOODED CANINES

Will Shine at Kentucky State Fair—Show Will be Greatest Ever Held in the South.

Big dogs, little dogs, short dogs, tall dogs, dogs with hair, dogs smooth and fair, dogs grave and staid, dogs cute and frisky, dogs of a kind you pet, these whom you touch would be risky, dogs of royal decree, dogs who shine on a farm, dogs for milady's lap, dogs a hunter to charm, dogs from New York, Philadelphia, Pittsburgh, Cincinnati, Memphis, Chicago, St. Louis. In fact, that a dog from each city of prominence will be on hand for the great Bench Show to be given at the Kentucky State Fair September 15-20, in Louisville, is the positive expectation of the Fair Management, as the classes for this exhibition alone number over 600, and the prizes offered in connection with the affair are sufficiently valuable and highly regarded among breeders and owners to attract the leading dog fanciers of the country.

The fact that the bench show at the Fair is held under the rulings of the American Kennel Club guarantees an unimpeachable standard and the presence of dogs of genuine merit only.

In addition to the premiums listed for the 600 classes there have been more than twenty special prizes offered by dog fanciers and their donations include both cash as well as magn-

BERKSHIRE CONGRESS

Will Be Held in Connection With the Kentucky State Fair—Nine Ribbons Will Be Offered in Each Class and Some Showy Herds Are Assured.

An example of the repute won by the constantly enlarged and improved Kentucky State Fair celebration may be mentioned the fact that Kentucky has captured the American Berkshire Show for 1913, and this exhibition will be held at the fair grounds, in Louisville, during the coming celebration.

This national Berkshire exhibition is authorized by the American Berkshire Record Association, and is an event held from year to year at some leading state fair, the location being selected with a view to most generally benefiting the Berkshire breed, and it is a decidedly pleasing feature in the cap of Kentuckians that Kentucky was voted the next congress in preference to Illinois, which has heretofore ranked as the state pre-eminent in advantages to the showing of swine of all breeds, and of Berkshires in particular. In fact, Chicago has always been regarded as a Mecca for the great swine herds of the country.

The prizes offered in the Berkshire contest total up to \$1,400, the sum of \$600 having been contributed by the American Berkshire Association, a like amount by the Kentucky State Fair management, while the balance was donated by those interested in the development of the Berkshire hog. All the leading Berkshire show herds of the country will enter for exhibition, and there will be two beautiful trophies offered by the American Berkshire Association, one for Kentucky, exhibitors and one open to the world. For years the association trophy has been a much coveted honor among exhibitors at the leading fairs and shows of the country, and it is a foregone conclusion that the prominence of Kentucky as a live stock state and the extensiveness of the fair exhibition will key the interest in this handsome prize up to the very highest tension.

There will be nine ribbons offered in each class, and the premium money is so distributed that any exhibitor with only a few good hogs is assured of making his expenses.

The Berkshire Congress and Swine Show will be held in the beautiful new judging pavilion erected last year, the building being a model of convenience and perfect arrangement. It affords every advantage to exhibitor and spectator alike, and it is expected that every loyal follower of the Berkshire will flock from every part of the United States to do homage to this peerless breed.

Both in point of numbers as well as in general excellence it is expected that the Berkshire Congress at the coming Kentucky State Fair will excel the exhibits of the great International Exposition in Chicago.

There will also be splendid classes of Poland China, Durac Jerseys, Tanworths and Hampshire hogs in addition to the Berkshire exhibits.

LAKE DISAPPEARS

Picturesque Body of Water Drawn in By a Volcano.

Rome, Aug. 19.—The picturesque lake of Conternos, near Rimini, Italy, the home of the tragic lovers, Francesca and Avio, has suddenly disappeared, the waters being drawn into the crater of a submerged volcano. Thousands of dead fish are heaped on the dry lake surface.

EVE IN HER FIG LEAF APRON

Modestly Dressed Compared to Slit Skirted X-Ray Daughters.

Minneapolis, Minn., Aug. 19.—Before leaving tonight on a trip to South America, Rev. G. L. Morrill, of the People's church, formerly of Owensboro, Ky., took a parting shot at present dress styles in some pithy sentences.

"I believe that the Amazonian women of the jungles will be more modest than their Christian sisters here who progress more, but wear less," said Mr. Morrill in his parting interview. "Mother Eve in her fig-leaf apron was modestly dressed compared with some of her slit-skirted diaphanous daughters."

"The split skirts show a cracked brain and empty heart and advertises demimondane charms. Clothes are an index of character. What a woman wears shows what she is and what she is not. 'Slit skirts are open doors to hospitals here and hell hereafter.' Jeremiah, the prophet must have been thinking of the present styles when he wrote, 'For the greatness of thine iniquity are thy skirts discovered and thy heels made bare.'

Mr. Morrill will be accompanied by a moving picture operator in his trip to South America.

To Few Like Him.

Terry T. Hansberry, who has just resigned as Postmaster at Eddyville, for a Republican seems to be in a class by himself and disproves the old adage that "Republicans rarely die and never resign." Postmaster Hansberry took the view that, since "things have gone Democratic," he was holding a job that belonged to some good Democrat, and he opened the way by stepping down and out. Democrats all over Kentucky would be mighty well pleased if other Republican Postmasters would see things in the same light as Mr. Hansberry and "go and do likewise."—Louisville Times.

Land is Found to

be Turkey Trotting.

Tacoma, Wash., Aug. 18.—When State Fire Warden Ferris received a letter from his Skamania county deputy stating that a forty-acre tract of school land was "turkey trotting" all over the neighborhood, Ferris hastened to Stevenson, Skamania Co. He found that fifteen square miles of comparatively level semi-timber land in the foothills of the Cascades are having one grand undulating spree, due apparently to very thin earth crust, underlined by a great subterranean lake or swift-flowing river.

FACTS

Local Evidence.

Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ.

Here's a Marion fact. You can test it.

Thomas L. Hillyard, Railroad street, Marion, Ky., says: "Doan's Kidney Pills came to my rescue after I had suffered a great deal and had spent much money for medicine without any benefit. I was taken with an attack of typhoid fever and upon recovering, found that my kidneys were badly disordered. The pains in my back were so severe that frequently I had to leave my work and lie down for several hours. There was a constant desire to pass the kidney secretions and on this account, I was obliged to get up several times during the night. The kidney secretions were highly colored and the passages were attended with pain. I often became dizzy and saw spots floating before my eyes. A relative, hearing about my condition, advised me to give Doan's Kidney Pills a trial, I procured a supply at Hayes & Taylor's Drug Store and they cured me in less than two months. For over two years I have had no sign of the old complaint. I am bound to look upon the cure as a permanent one."

The Time Ripe For Action.

Some weeks ago, if our memory
is not at fault, there was a
very important movement launch-
ed in one which bid fair to
cover the counties of the En-
glish tobacco belt. It was pro-
posed to organize a consolidated
tobacco company to market the
entire crop of the English type
tobacco. The company was
well launched and the purposes
were so fair that it seemed
as if it would favor the pro-
tection of the company.

From some cause not much
further seems to have been ac-
complished. We believe we are
within the record when we say
the people favor the plan, and
are just awaiting an opportunity
to affiliate with the new com-
pany. The time is approaching
when some definite steps should
be taken to launch the proposed
company. Soon the new crop
of tobacco will be ready to har-
vest and the market, and if the
grower's not to be at the mercy
of the buyer, something must
speedily be done. We have
seen no pooling papers having
been gotten out to signed.
The time is ripe for action.

The Hustler is of the opinion
that a series of county meetings,
district meetings, or a delegated
meeting for the entire area
should be called at once and the
final steps taken in the organization.
This is no time for dilly-dallying
or for engaging in the pet hobby of nursing ones wounded
feelings. After this is done
then let the individual growers
be given the opportunity of pooling
his tobacco. This is business
of prime importance and should
be attended to at once. We be-
lieve the Resolution Committee
is in charge of this matter and
should meet and issue a call.—

Convict Work on Roads.

Kentucky's road commissioner,
after an investigation of results
in other states, reports in favor
of the employment of able-bodied
short term convicts in road
making. Georgia's road com-
missioner states that the prison-
ers employed on the highways
are healthy, tractable and more
than ordinarily contented, and
that their labor is satisfactory.
Alabama's highway engineer re-
ports that when properly manag-
ed convict labor on the roads is
more effective than paid work,

and that the cost of thus using
convicts is from 40 to 65 cents a
day. Georgia employs 5000 on
the roads, and estimates the
cost at one half that of paid labor.
California adopted the sys-
tem last year and is pleased with
it. Colorado's convicts built 157
miles of mountain road in 1912
at a cost of 32 cents a day per
man. In Illinois sixty-six con-
victs are kept at work in quarries
and at crushing stone at a cost
of 50 cents a day. Kansas offi-
cials think the effect good on
convicts. Louisiana built 25
miles of permanent roads last
year with convicts and found the
expense 40 cents per man.

In Michigan the convicts bre-
ster road work, and Minnesota
considers stone crushing by
convicts a success. Montana works
225 prisoners on the roads and
thinks they are much benefited
by the out door labor. North
Carolina is another state that has
gone into the system extensively.
Its 2300 convicts thus employ-
ed cost from 42 to 72 cents a day
each. Oregon makes a favor-
able report. Its 106 convict road
workers cost \$14 per month,
Virginia's 735 convicts are kept
busy on the roads at a cost of
34.3 a day per man. Wash-
ington is satisfied with convict labor
in stone quarries. Cole County,
Mo., has had from twenty to
forty convicts at work on roads
and the state highway engineer
testifies that the work at a daily
cost of 40 cents, is equal to that
of free labor. The movement is
growing. In every case the san-
itary benefit to the men is stated
to be marked and the discipline
is easily enforced. This resource
for getting good roads has
become one of the most important

A LONGING.
BY JAMES R. GLASS.

I long to be, and not to seem;
I long to know, and not to dream;
I long to see, and not to grope;
I long to live a life of hope.

I long to reach the heights of lore;
I long my mind with facts to store;
I long to read and learn of men;
I long to see old friends again.

I long to live with all in peace;
I long that I, when life shall cease,
Shall leave a pure and stainless name;
I long not for power and fame.

I long to be good, kind and true;
I long to do some good for you;
I long to have the love divine;
I long for heaven to be mine.

I long to live, and without blame;
I long for a life free from shame;
I long to live, but not to roam;
I long to gain a happy home.

I long to earn my living here;
I long to be chaste and sincere;
I long to live a life of love;
I long to gain the courts above.

I long that I, when dead, shall find
That friends of mine, so true and kind

Will place a stone to mark the place
Where I have gone like all the race.

WATERMELONS CAUSE LYNCHING IN OKLAHOMA.

Mob Hangs Blacks hanged With
Killing Whites Over Luscious Fruit.

Ardmore, Ok., Aug. 19.—Watermelons were the indirect cause of two lynchings at Paul's Valley, Ok., last night. According to reports received here today Sanders Franklin and Henry Ralston, negroes, were taken from officers who were on their way from Ardmore to Paul's Valley, where they were to be

placed on trial for killing two white persons, and hanged to nearby trees.

The two negroes had been in jail here for safe keeping. Franklin shot a white man to death in a dispute over the price of a watermelon, and Ralston shot and killed a white boy whom he found in his melon patch.

The Demand for Skilled Drafts- men and Artisans Increasing.

In order to meet the demand for draftsmen and skilled mechanics the College of Mechanical and Electrical Engineering of the State University has established a short course in mechanics arts covering a period of two years. There are many young men whose secondary education has not been extended enough to enable them to enter the high grade course in mechanical and electrical engineering, but the University in order to take care of the great number of young men who are not qualified to enter the freshman class but are ambitious to become skilled draftsmen, designers and artisans, has established this course which will be of great value to many young Kentuckians and when they have finished the prescribed course of study they will be able to secure positions with industrial concerns that will lead eventually to positions of responsibility, depending upon the aptitude of each individual. This course of study is given to the young men of Kentucky practically without cost and it is hoped that a good many young men of this community will take advantage of the special training that has been provided.

During the University has received a great many applications for draftsmen and young men skilled in shop practice and there will be no question about young men securing good positions when they become skilled in these practical branches.

Her Simple Question.

A young man took a young woman friend to a ball game for the first time, and in his superior knowledge he asked her if there was anything about the game she would like have explained.

"Just one thing," said the sweet young thing. "I wish you would explain how that rheumatic bush league relic in the box ever gets the ball over the plate without the aid of an express wagon."

And in the silence that followed all that could be heard was the faint chugging of the young man's Adam's apple working feverishly up and down.—Boston traveler,

Mr. Editor,

Please announce, through your paper, that there is to be a singing convention at Repton church Saturday Sept. 6th. All singing classes in the county are invited to come prepared to participate in the exercises. Everybody come with well-filled baskets. A good time is expected.

Yours truly,

Anty Brudge—My present is a homely one, Dearie, just a box of Fels-Naptha Soap. But it will lighten your work and bring more happiness than any silverware or bric-a-brac."

The Bride—“Thank you truly, Anty Brudge. I shall follow your advice faithfully.”

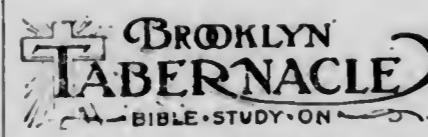

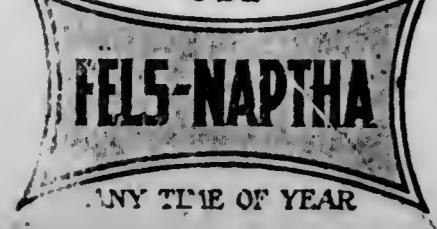

Woman's work is being made easier. The weekly wash, for instance. It used to be an all-day job, with the woman getting up at 5 o'clock in the morning to heat water for boiling clothes. Now, she washes with Fels-Naptha Soap in cool or lukewarm water, and takes little longer than half the time of the old way.

No boiling, no steaming suds, no hard-rubbing; and the clothes are cleaner and fresher than ever before.

Follow directions for using Fels-Naptha on the Red and Green Wrapper.

USE

THE MANNA FROM HEAVEN.
Exodus 16:2-15—Aug. 24.
“Jesus said unto them, I am the Bread of life.”—John 6:35.

REALIZING both their deliverance from bondage and the Divine providence exercised in their behalf in the overthrow of the Egyptian army, the Israelites were joyful. Moses composed a beautiful poem, which the men chanted after him. The women, under the leadership of Miriam, Moses' sister, took their tambourines, or tambourines, and joined in a chorus, their bodies swaying and their feet moving rhythmically in a dance.

Singing songs of praise constitutes one of the most profitable methods of worship. But surely they are acceptable to God only as they truly represent the heart sentiments.

We fear, alas, that many hymns, like many prayers, never go higher than the heads of the offerers; indeed, we have sometimes feared that careless slinging might really be resented by the Lord as profanity-taking His holy name in vain. If so, the results would be the very reverse of blessing. In proportion as the singer comprehended the import of his course.

Bitter Waters, Then an Oasis.
The journey toward the Land of Promise began. At length, they came to an oasis, where there was an abundance of bitter, or brackish, water. The disappointment was great. The people murmured against Moses for bringing them from the land of plenty to die in the wilderness.

The Lord's Wisdom guided Moses to a certain kind of tree, which, put into the water, made it sweet and palatable. Moses explained that in murmuring against him they really murmured against God; for he was merely God's agent. A further journey brought them to Elim, a delightful spot, where they were refreshed.

The Scriptures explain that God had a special purpose in this leading of Natural Israel. He was teaching them helpful lessons which, rightly received, would prepare them, through faith and obedience, for Canaan.

The lesson to Spiritual Israel is still more important. If Natural Israel needed heart development and faith as a preparation for the earthly Canaan, how much more do Spiritual Israelites require for the Heavenly Canaan! Can we wonder that God permits trials of faith and patience—“bitter waters”? Any saint of God may have tears in the trying experiences of the narrow way, but none is excusable for murmuring.

It Is What?—It Is Manna.

When the Israelites murmured against God and Moses, His mouthpiece and servant, it was because of insufficient faith. Those who truly believed in the Providence which had preserved them from the plagues of Egypt, and had brought them through the Red Sea, would reason that God would not leave them to starve in the wilderness. But the majority evidently murmured through disbelief.

So it is today. As St. Paul declares, “All men have not faith.” We do not come for this. Evidently birth, early training and larger experiences give some a great advantage, so far as this Age is concerned; for God has ordained that the Message now is for those who have the ear of faith. Whoever has the hearing ear and can exercise faith has a blessed opportunity of making his calling and election sure under the call of the Gospel Age.

We thank God that His Word reaches of a coming age, wherein Messiah will bless with precious opportunities those not having the hearing ear and responsive heart in this Age, and that in the Millennial Age all blind eyes shall be opened and all deaf ears unstopped.

That night God sent a great quantity of quail. One account of this wonderful supply has been credited by some agnostics who thought it to mean that quail covered the ground to the depth of nearly five feet. The explanation is that a nail, flying across the Gulf of Suez, in weariness flew close to the ground and thus were easily captured.

Next morning the ground was covered with whitish particles, a little larger than mustard seed and tasting like honey wafers. This was to be their daily supply. It required gathering and preparation; and this gave them employment, without which they would have been unhappy.

Jesus declared that the manna given in the wilderness typified Himself, the bread. As Natural Israel would have perished without food, so Spiritual Israel would not have sufficient strength for the journey without Heavenly Food. Jesus gave Himself the bread of the Truth. Whoever eats of this bread from Heaven eats of the Truth. Only by partaking largely, daily, of our Lord's gifts and His gracious arrangements can we become strong in Him, enter the spiritual Canaan.—John 6:31.

Wellington, Mo., Aug. 19.—Death, whether at palace or hotel, seldom is a welcome visitor. However, he found the latchstring out here at the home of Thomas F. Lockhart, who has spent 27 years in bed in practically one position, praying for release.

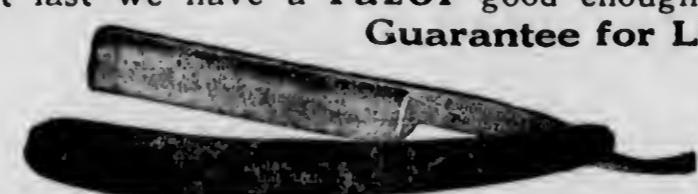

Lockhart's joints were ossified so that the only movements of the body he could make were a shrugging of the right shoulder and the middle joints of two

fingers on the right hand. With this shoulder and finger movement Lockhart had written an autobiographical book, which brought him funds sufficient to purchase the home here in which he died and to pay for nurse to care for him constantly.

He had published several other writings, mostly of a biographical nature and emphasizing precepts of patience.

Lockhart took to his bed Christ mass night, 1886, following a long ride through a cold rain. He never left it. One after another his joints became useless. He was 83 years old.

Human Events.

(Philadelphia Ledger.)

Books could be written on the subject of big effects from little causes. A dish of radishes caused for one day quiet a smart little panic in the stock market. At one time during that day—after the late Gov. Roswell P. Flower, who was a great speculator, and who had unfortunately eaten the radishes and died—paper losses in stocks soared up in the millions.

I am told by a man who knew Henry M. Flagler, that his inability on one occasion to procure good boat accommodations to Key West set him to thinking about building his own famous marine railroad, which cost tens of millions.

Because he couldn't become president of the Pennsylvania railroad Andrew Carnegie induced the Vanderbilt people to start the South Penn Enterprise, upon which a few millions were wasted.

Years after the event happened I knew a man who, having made a small fortune in oil, bought a hotel in a certain Pennsylvania city. The reason he did it was because a clerk, who was unfriendly

orably impressed, by the man's uncouth appearance, had refused to give him a room in that particular hostelry. After the purchase the clerk was dismissed, and the new owner soon afterward sold the hotel at a profit, as he himself told me, of \$3,000.

A quarrel which a fourteen-year-old French boy had with his stepmother led to his going to sea, and a second accident—the presence of a British warship near the Delaware Capes when his own ship was there—prevented his going over to New York some years later. So Stephen Girard came up to Philadelphia and gave us Girard College.

I heard the late Dr. William Pepper say that the chief difference between an ordinary physician and a great specialist lay in the latter's ability to foresee the grave consequences that might result from the most insignificant causes. The diagnostician of human events generally must admit that no cause is too trivial to produce monumental results.

Good Reason for His Enthusiasm.

When a man has suffered for several days with colic, diarrhea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera Diarrhea Remedy, as is often the case, it is but natural that he shall be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers.

The stockholders of the Marion Tobacco Factory Company are hereby called to meet at court house in Marion on Saturday August 30th 1913 at one o'clock sharp. Let me urge every member to come as there is business of importance to attend to.—W. B. Rankin com.

Costly Treatment.

“I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment,” writes C. H. Hines, of Whitlow, Ark. “I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right.” Sold by all dealers.

Ships Will Pass Through Panama Canal in October.

New York, Aug. 19.—That the first ship would pass through the Panama Canal in October was the opinion expressed today by Lieutenant Colonel Eugene Wilson, U. S. A., on his arrival here from Panama for a two months' vacation. Col. Wilson is an assistant to Col. Goethals in the construction of the canal.

Col. Wilson said that the two oceans would be joined in Sept., and that by next spring the canal would be ready for the vessels of the world. The fortifications, he added, would not be completed until after the canal is opened.

Cures Old Sores, Other Remedies Won't Cure. The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves pain and heals at the same time. 25c, 50c, \$1.00 per bottle. Sold by all dealers.

On Saturday Aug., 30th the Patipatrick graveyard will be cleaned off. All interested parties will please bring tools to work, dinner to spend the day and money to help pay for the fencing. Rev. J. F. Price will be on hand and will deliver a sermon in the afternoon which will amply pay all for their presence.—J. F. O'Neal committee.

MEDICAL BOOKS!

Probably at some time or other, a smooth book agent has tried to sell you “doctor book.” Generally it is a big, heavy volume, with the names of physicians in distant cities on the title page, and a big, heavy price set on it. The agent will tell you that by a little study of its pages, you can always tell just what will you, just what medicines to get at the drug store, and just what doses to take. So you will save all doctors' bills. If you buy the book, you put yourself among that class of fools from whom the sharper of the world make a rich and easy living.

Gas in the stomach comes from food which has fermented. Get rid of this badly digested food as quickly as possible if you would avoid a bilious attack; HERBINE is the remedy you need. It cleanses and strengthens the stomach, liver and bowels, and restores energy and cheerfulness. Price 50c. Sold by Haynes & Taylor and James H. Orme.

Eventually.

“I could hold your hand forever!” he exclaimed rapturously. “If you did,” she replied calmly, “you might learn how.”—Life.

NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs. Burton, Under the Circumstances.

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

Young Woman Drowns While Swimming.

Frankfort, Ky., Aug. 9.—Miss Catherine Faxon, stenographer to Barksdale Hamlett, Superintendent of Public Instruction, was drowned in the Kentucky river late Saturday about a half mile above Frankfort. Miss Elizabeth C. T., stenographer in the office of Miss Fannie Rawson, secretary of the Kentucky State Library Commission, was drowning when rescued by George Bright, law clerk to Judge Settle, of the Court of Appeals.

The two girls, who could swim very little, were on a sandbar across the river from the Lawrenceburg pike, and stepped into offset. George Bright, who had taken them across in a canoe, was in the middle of the stream, swimming waves in the wake of a lunch. He observed Miss Culter sink and swam to her rescue. While he was taking her ashore Miss Faxon sank and never came up.

CODE FOR HUSBANDS.

These are rules Dillman has formulated for husbands as the result of his experience:

Keep all promises made before and at the time of marriage. Divide the newspaper and everything else.

Keep a joint bank account. Go to your club no oftener than one night a week.

Have no dogs or pets of any kind.

Call her up on the telephone two or three times a day.

When away from home write or telegraph every day.

Take her with you on business and pleasure trips as much as possible.

Be more polite to her than to any woman you meet.

Remember that she likes flowers, candy and books just as much after marriage as before.

Don't appear before her in your birthday suit.

Make it a business to be comfortable wherever she is happy.

Don't criticise her dress.

Be a gentleman to all women, but a husband to only one.

"If you have been faithful in all things, generous, considerate and loving, and then she is dissatisfied, get a divorce. Life is too short to waste any of it trying to please an abnormal woman."

Blisters on the hands, burns, scalds, old sores, lame back and rheumatism are all subject to the great healing and penetrating power of BALLARD'S SNOW LINIMENT. It is a marvelous pain relief. Price 25c, 50c and \$1.00 per bottle. Sold by Jas. H. Orme and Haynes & Taylor.

Their Wives Too

Speakers on Home Making Have Been Secured For the Barbecue at Versailles, Aug. 20

A BARBECUE has usually stood for politics and men only. The big Camden barbecue is to be educational and is to include the farmers' wives in the makeup of its splendid program. No effort will be spared to make the farmers' wives and daughters comfortable when they attend this large meeting. A special rest tent will be provided for the ladies, and a physician will be in attendance.

In reading over the program which has been issued in the last week one is very much impressed with the fact that the major portion of the speakers will talk on co-operation and the marketing of crops instead of increased production of crops. For a long time the farmer has thought that increased production would solve all of his problems, but he now realizes that he must learn

THOROUGHBREDS.

more about marketing his crop when made and financing it before it is made. Mr. J. C. Caldwell, or, as his friends and neighbors call him, Jim Caldwell of Lakefield, Minn., will talk on "The Farmer and His Finances." He is a man who speaks from a wide experience, an experience that embraces the launching of a co-operative elevator, a farmers' bank, a co-operative store, a co-operative creamery and, last and by no means the least, a co-operative church. He will have something to say that will get close to the people, for he is one of the people. He is not an expert or a theorist, but a man who has accomplished things in everyday life. It might be well to mention the fact that he is just home from an extended trip abroad with the commission which has been studying foreign methods of farmers' credit and co-operation.

Professor Charles J. Brandt, assistant in charge of the bureau of marketing Washington, will tell of the work of his department in "Co-operative Farm Marketing." Mr. E. M. Tousley, who is editor of "Co-operation" and also secretary of the Right Relationship League, will discuss "Co-operation." The Farmers' Educational Co-operative Union of America will be represented by Mr. R. L. Barnett, who will discuss "The Farmers' Union."

Professor Cyrus W. Hopkins of the great University of Illinois has been secured to tell something of "Soil Conservation." The chief of the farmers'

wives, so that two speakers' stands may be used in a time and accommodate many crowd which may come to the barbecue.

JOHNNY GREEN WILL FLY AGAIN AT CHATTANOOGA

Green's Cardui Flyer.

Chattanooga, August 20.—The Chairman of the Grand Army Entertainment Committee, has closed a contract with Johnny Green, famous Cardui birdman and waterfowl, to make three flights in Chattanooga during the G. A. R. Reunion, to be held in Chattanooga September 15-20.

Green is the man who made the record flight in Cardui Flyer No. 1 over Lookout Mountain during the U. C. V. Reunion last May. He was the first man to attempt that dangerous flight, refused by so many other prominent aviators. A feature of his exhibition next month will be a flight in his Cardui No. 2, equipped with hydroplanes, up the Tennessee River. This will be the first hydroplane flight ever made by any Southern aviator.

Visitors to the G. A. R. Reunion will do well not to miss these flights by the famous aviator, free to all, and should look out for the dollar bills, which he drops among the crowds below, as he goes hurling through the air.

SEVEN SPRINGS

School commenced at Boaz school house Monday with Mrs. Minnie Brasher at the helm.

Rev. U. G. Hughes, of Marion, was in this section last week delivering enlarged portraits.

Quite a number of people from this neighborhood are attending the camp meeting at Kuttawa.

Floyd Simkins, wife and little baby, Sylvan, of Emmaus, were guests of M. L. Patton and wife Saturday night.

Burnett Brasher and family of this neighborhood have moved to Sikeston, Mo., to make their future home.

Misses Luda Kinsolving and Ethie Butler, of Emmaus, were guests of Norvel McKinney and wife Sunday.

Tom Patton and family went to Edaville last week to view the penitentiary.

Mrs. Lizzie Kinsolving and Miss Corine Graves, of Emmaus, were the guests of Mrs. Nannie Patton, Saturday.

Rev. Franks filled Rev. Kinsolving's appointment at Seven Springs the second Saturday and Sunday. Using as a text on Saturday, Deut. 8:18 and on Sunday, Psalms 27:4.

Aus Davis and wife, of Elm Grove, were guests of J. W. Holoman and family Sunday.

Mrs. Sallie Henry visited relatives near Pinckneyville last week.

M. L. Patton and son, Collin, were in Kelsey, Friday.

Miss Beesie Campbell is somewhat improved in health.

BRAIN LEAKS. BY F. S. LOYD.

Miss Mattie Smith got a little huffy by Billy Cox the other day, and said to him, "I wouldn't buy any of your old junk. It's no good. Now I hope I've made myself perfectly clear to you." "Not yet, Miss. Try some of my famous cough drops. It will clear your voice a little."

Victor Young said to Miss Ida May, "Say I've got ideas." "Mercy, hold onto it a few minutes until I can call another witness."

Uncle Billy Loyd says "I don't want to but in, but no woman who has false teeth should try to eat corn on the cob when she is out in company."

A certain girl was walking down the street the other day with a red handkerchief tied around her, and uncle Newt Dollar said to his companion, "ain't it awful the way they treat? I can see clear through that girl."

Mrs. Ellen Loyd says there ain't no such thing as a way to manage a husband. All you can do is feed him, treat him right and trust to luck.

Billy Elder says the biggest fool in the world is the man who insist upon talking about his troubles when you want to talk about your own.

Miss Mattie Smith says a woman can look into the mirror 300 times a day for thirty years and see that she is homely, and then some onery cuss will come along and tell her she is handsome, and she will believe him.

Dick Crow says no matter how fat a man's wife gets, she is always tempted to cut one leg off a pair of his pants and make a new hobble skirt.

Miss Hellen Davis said to her lady friend, "he says he dreams of me all the night." "Yes, he told me he had night mares, awfully."

Uncle John Rice says the girls are wearing one-piece dresses that button down the front. Yes sir, they put them on just like we do our overcoats. If they lose as many buttons as we do, there will be something doing some of these days and they will go back to safety pins.

Aunt Martha Grady says, "gee, things do change. What has become of the old fashion girls who wore petticoats and a peek-a-boo waist."

Mrs. Joe Dollar relates to me a remarkable incident and we believe we have never heard of another case just like it. She says a short time ago she set one of her hens on 12 eggs and when she came off she had 14 chicks.

What He Would Be.

During a Republican campaign speech an orator became quite exasperated at the remarks of an old farmer, who kept insisting as he interrupted the speaker that he was a democrat.

"And why, sir, are you a Democrat, may I ask?" thundered the orator.

"My father was a democrat, as was his father before him," replied the farmer.

"Well, now," asked the orator, "suppose your father was a fool and your grandfather was a fool what, under your line of argument, would you be?"

"I'd be a Republican," drawled the farmer.—Ladies' Home Journal.

CELEBRATION IN LOUISVILLE

KENTUCKY METROPOLIS WILL COMMEMORATE INCIDENTS IN WAR OF 1812.

HUNDRED YEARS OF PEACE

Battles Which Kentuckians Won and Massacres in Which They Suffered Will Be Reproduced in Fireworks and Shams on Land and Water.

A week's celebration, which Louisvillians declare will be the greatest and most spectacular in the history of celebrations in America, will be held in the Kentucky metropolis for seven days, commencing September 29, and will be the climax of a series of celebrations held in a dozen lake cities, to commemorate the sufferings and victories of American arms in the War of 1812 as well as to focus attention on the achievements of a century of peace. The cruel and decisive engagement of the War of 1812 was the battle of the Thames, fought and won on Canadian soil October 5, 1813. The series of celebrations, which will be held in America will close in Louisville, October 5, 1913, and just one hundred years from the hour that Col. Richard M. Johnston, afterward Vice President of the United States, slew the Indian chief Tecumseh. President Woodrow Wilson will probably be addressing a crowd of 100,000 people in Louisville, the home of many of the troops who fought in the battle of the Thames.

Kentucky was assigned the closing and choice date of the celebration because of the distinguished part played by the Kentuckians in the War of 1812. Kentucky began to play her part in the generation before the war opened, when she sent Gen. George Rogers Clark and other Louisville soldiers into the hostile wilderness which they wrested from the French and Indians and out of which was afterward carved the great States of Ohio, Indiana, Illinois, Wisconsin and Michigan.

Kentucky was the last state which could have benefited from the war, inasmuch as it was brought about chiefly by the British impressment of American seamen, none of whom were Kentuckians, whereas should war prevail the unfriendly Indians on the frontier of the border states could be expected to commit atrocious acts, which Kentucky had already received the name "Dark and Bloody Ground." However, it was chiefly Henry Clay, in the Kentucky Congressional delegation, that forced President Madison to declare the second war with Great Britain, and Kentucky furnished forty per cent of her fighting population to go into that war, and at the close of the war the listed dead more than eighty per cent were the names of Kentuckians. Kentucky troops to a man were massacred at the River Raisin and again at the first attack on Fort Meigs.

When the time came to man Perry's new-hewn ships, he selected Kentuckians unaccustomed to the motion of the lakes to mount into the insecure rigging and from that vantage point, with their practiced eye and unerring aim, fired down upon the British and won the battle of Lake Erie. Practically every officer and soldier in the battle of the Thames was a Kentuckian, excepting alone Gen. William Henry Harrison, who, however, held his commission as Major-General from the Kentucky legislature. The charge of the Forlorn Hope, about the briefest, most terrible and most heroic attack narrated in the annals of warfare, consisted exclusively of Kentucky soldiers when nineteen of them and their twenty horses went down to certain death. It was the Kentucky sharpshooters who are credited with having won the battle of New Orleans after the war had in reality closed.

Kentucky proposes to reproduce most of these scenes of the war of 1812 in the Louisville celebration. The battle of the Thames will be reproduced on land in Cherokee Park, topographically situated similar to the land on which was fought the battle of the Thames, and every detail of the sham battle will be as nearly historically correct as can be done. Louisville will take advantage of her magnificent river frontage in order to celebrate suitably the battle of Lake Erie. The actual battle will be depicted in a gorgeous entertainment of fireworks and all morning and all afternoon preceding the engagement there will be boat races, life saving feats and aquatic sports. A historical pageant, depicting various scenes of the war of 1812 will also include a magnificent floral parade, such as made Louisville famous a year ago, and will include civic and military parades many miles in length. Drills and exercises by 10,000 costumed school children will be held in the First Regiment Armory; a mammoth reception will be given to the descendants of Kentucky soldiers and sailors of the war of 1812, and a series of costumed balls will be given in their honor.

Exceedingly low railroad rates, probably as low as one cent per mile, from a distance of several hundred miles of Louisville, will be granted and efforts are being made to secure to other Kentucky points rates from Louisville for the week immediately following the celebration, to enable former Kentuckians who return home to visit the celebration, to visit also their old Kentucky homes.

Friends and neighbors being present were I. H. Duncan and family, Mrs. H. L. Sullivan, Mrs. Gus Summerville, Mrs. Burt E. Woody, Curtis O'Neal and family, Mrs. C. C. Truitt and children, P. H. O'Neal, uncle Will Hughes, Mrs. Brina Woody, Mrs. Salie Simpson, Mrs. Bettie Walker, Mrs. Dock Brown and son, Ed, Annis O'Neal and son, Everett, Mr. and Mrs. Frank Cowen, Mr. and Mrs. D. H. King and son, Mrs. Clara Vinson and daughter, Miss Ora Pumbly, Mrs. Eva Hughes, Misses Annie Gregory, Zee Phillips and Kittie Chandler, Bro. Jake Wheeler. At high noon the dinner was spread under big oak tree in the yard, which consisted of two barbecued goats, ten yellow legged chickens, ten different kinds of cake, pies, and every dainty that could be thought of that was good to eat. After dinner there were several songs sung and several good talks by Mrs. Frank Cowen, Silas Phelps and Rev. Jake Wheeler. Frank Cowen had his gaphophone and gave us a nice entertainment with it. Everyone enjoyed the affair, and the entire crowd sang "God Be With You Til We Meet Again," then we were dismissed by Rev. Wheeler. Aunt Vina asked the prayers of the crowd that she might live to see another birthday and asked us to be present next August 11th, 1914.
